This Pine Tree Desk is a thoroughly modern creation, yet very old and thoroughly correct in design. Each charming detail has its source in some fine old Early American piece. Its gayly painted interior and quaint pine tree carvings, for instance, are from a rare old dower chest. An early desk box inspired its secret well and the brass handles on the ends.

It is from such authentic documents in design that all Danersk Furniture is made. On display in our showrooms is a large collection of pieces and groups for all rooms of the house.

Memphis, Tenn., April 18.—(P)—
Heavy with the flood waters of twonofths of the total area of continental
United States, the Mississippt river and
its tributaries hammered incessantly
today at the levees along their banks.
Throughout their length man and 1 chine tonight continued to pile on sandbags and construct emergency revetments on the dikes to protect the
flood plains extanding at an average
width of fifty miles from the river
ridge. Widespread distress and ruin
mark the places where the rivers have
broken from their artificial bounds.

Spreads Over 7 States.

Spreading widely over Missouri, Ar-kansas, and Mississippi, with lesser areas inundated in Illinois, Kentucky,

areas inundated in Illinois, Kentucky, Tennessee, and Louisiana, the flood has driven an estimated 25,000 persons from their homes and wrought ruin expected to mount into the millions of dollars. Upward of a dozen lives have been lost.

Most disheartening to the refugees are the upward revisions of flood stages issued by the weather bureau. At Fort Smith, Ark., new rises were registered and official predictions said new floods probably would break all records with a stage of 37 to 38 feet.

52% gain in City Circulation

Made by St. Louis' Largest Daily

NGS

Let's get this straight:

The Globe-Democrat is St. Louis' Largest Daily . . . has been for years. It means just what it says: The Globe-Democrat has a larger daily circulation, by many thousands, than any other St. Louis newspaper.

52 New Readers in addition to Every 100 Old Ones

Tou know how the attention of the nation is focused on St. Louis today Great central market Mecca of 28 railroads Capital of the famous 49th State.

And you know that St. Louis' growth in population is keeping pace with its remarkable growth in industrial importance and wealth.

But do you know that the rate of increase of the City Circulation of The Daily St. Louis Globe-Democrat is more than seven times as great as the rate of the city's population increase?

It's a wonderful record, covering the period from 1921 through 1926.... A gain of 52% in daily circulation in St. Louis.... And remember that this gain was made by St. Louis' Largest Daily.

Phenomenal?.... Well, yes, until you

consider the facts.... Here is the only morning newspaper in St. Louis—the oldest newspaper here—and its influence reaches into the lives of St. Louis people from the time they learn to read.

The growth of The Globe-Democrat, therefore, is one of the most natural things in the world.

And when you consider that this City Circulation is supplemented by remarkable coverage of the towns throughout The 49th State, you can understand the power of The Globe-Democrat as an advertising medium.

It is read by 20% or more of the families in 198 towns in The 49th State having a population of 1000 or more.

No other St. Louis daily even claims to duplicate The Globe-Democrat's duplex influence circulation in the city PLUS the rest of The 49th State.

Our representatives should be trained first of all to consular service should be the dominant branch of our state department and all our representatives should have consular service.

Fascist Italy evidently proposes having a thoroughly modern system of foreign representation. We have one that devotes much of its attention to fluff. It is time our country, priding itself on being modern, practical, progressive, should establish a foreign representation based on the realities. Of course a reform as drastic as this one ought to be will be bitterly fought by bureaucrats and politicians amenable to pressure. But it should be accomplished and can be if the business intelligence and influence of the nation will address itself to the task. BY AARON COPMAN.

LONDON, April 18.-There are few clocks at hardly any watches in Russian villages or on Russian farms. The peasant starts his toil at sunrise and ends at sundown. In northern provinces like Leningrad, Murmansk, Novgorod and Pakov, where in the summer the sun rises at 2:30 a.m. and sets at 10:30 p.m., a peasant family will work during these months from seventeen to eighteen hours a day and with the most primitive farm machinery and tools. As Rissis manufactures an inferior quality of farm machinery and tools, many of these implements have to be imported. This, coupled with the soviet monopoly of trade, doubles the prices.

The peasant works with hand made wooden harrows, plows of ancient construction and scythes of an inferior quality. He cannot even ened. A six inch file costs about 60 kopeks [30 cents]. And if the pensant breaks his scythe and is compelled to buy a new one his broken one is cut into pieces to be made into knives and sometimes home made ragors. The average peasant with a family of six to seven lives in a log cabin of two rooms—a kitchen and a so-called best room. One corner of the latter serves as a bedroom, another as a dining room, another as a parior and the fourth is some-times used as a bedroom of his married son. The kitchen serves as a bedroom for the children, and is often used as a maternity home for goats and sheep, as well as a nursery for other domestic

But of the flax, which is the most profitable product, he is sometimes able to prepare and sell from eight to ten poods [a pood is about thirty-six pounds] at about 7 rubles [\$3.50] a pood. To produce flax takes from six to seven months from planting time. The Russian stocks generally get through pregnancy and labor safely.

If a peasant woman collects one or two dozen eggs, she thinks nothing of walking ten miles to the autumn, when the peasant is through with the field work, he will kill a lamb or two, a pig, and salt it and keep it for Sundays and holidays. That supply of meat lasts this family for most of the supply of meat lasts this family for most of the winter. The peasants generally kill and eat a pig in honor of St. John's day, the midsummer festival. In late September or early October the church holidays begin. Each village seems to have its own holidays, on different dates. These give the peasant a chance to visit. Chicago, April 14 .- I notice that B. W. T. in your issue for April 14, writing from Evanston, draws an exaggarated pic-ture of the school teacher's daily work. I am not acquainted with Evanston schools, but I have been a Chicago principal for the last thirty-five years or more, and we do not require our teachers to work till midnight correcting papers, or any such work. Nor do we require them to work on Saturdays or Stindays. A principal who tolerates or requires any such prepenterous laber is yeary short-sighted and probably an isofficient manager, for the reason that he is wearing his teacher out prematurely and is destroying that spontaneity and anthusiant manager.

Good teaching requires a fresh, and active mind, and a teacher w

of pedagogy, but an excess of written work is always bad. Questions can be framed to require a maximum of thinking and a minimum of writing, and often pupils can correct the work of others quite as well as the teacher. This can be done on the spot in the schoolroom.

It develops the critical faculty, and an if the marking is questioned. This is especially true in mathematics. Teaching is a nerve-racking and a nerve-wrecking occupation, largely be-cause of the lack of sympathy and un-

cause of the lack of sympathy and un-derstanding of supervising officials, ill-disciplined pupils and misunderstanding parents. A principal's chief duty is to shield his teachers from these distract-ing influences as much as possible, to guide and direct the teacher in her work. I should say that the lady in question was unfortunate in her principal. E. L. C. M.

Spring Brings Countless Things for Your Home

Gardens Are Made Even More Lovely with These Smart Pieces

What, indeed, is a more inviting springtime and summer retreat than your own garden? (How fortunate you are if you have one!) Green and cool and restful it is. A good place to go and take stock of the world. We have collected a diverse stock of stone, terra cotta and cement pieces; things decorative and useful for your lawn, garden or rockery. Benches, bird baths, urns, and fountain pieces are here in a great range of prices. . . . The Bird Bath illustrated here is \$7. The Bench, 48 inches long, is of white cement, and is \$20.

Charming New Fabrics Are Here To Aid Your Decorative Scheme

April and May are the drapery months. Spring cleaning divulges the need for new fabrics. Or moving-day necessitates the recasting of your decorative idea. You will, of course, rely greatly upon the draperies for the color and smartness of your rooms. Hence we know that the things we have here for you-new, bright, and ultra-smart-will fill your need, and please you.

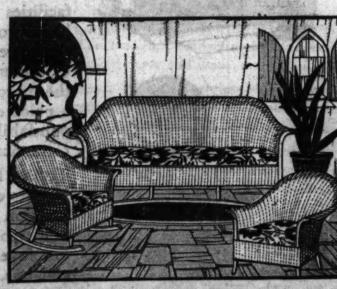

Decorative Fabrics Are Bright

The season dictates the use of color, and we have it abundantly in damasks, brocades, tapestries, velours, plush, casement cloths and reps. Curtainings, draperies and up-holsteries—thousands of patterns from which to choose.

Shades and Curtain Rods, Too

New curtains often mean new rods. Moving frequently necessitates the purchase of new shades. Our workroom and its experienced staff will provide you with exactly what you want, and carefully install them for you if you wish this service.

Take this natural means of throwing off the dead weight that makes you old beyond your years—leaves you incapable of the activity you know should come easy.

Few adults today are totally free of intestinal food-decay. Carelessness in diet and sedentary habits make most of us victims of this putrefactive process. The resultant poisons, if unchecked, eventually undermine the system—break down muscle, nerve and tissue, and thus hasten old age.

Brook Hill Acidophilus Milk corrects this condition by reducing the source. Where the organism, B. Acidophilus, holds the upper hand putrefactive germs cannot thrive.

Drink Brook Hill for two or three weeks. Give it a chance to banish those accumulated poisons. Then notice your increased vigor and vitality—the ease with which you are able to quicken your pace!

The trial of Mrs. Ruth inyder and Henry Judd Gray, corset alesman, for the murder of the former's husband, Albert Snyder, art edicor of Motor Boating, who was slain in his home while he slept, four weeks age, got under way to a alumbering start.

Butcher, baker, candlestick maker, they climbed into the jury box throughout the day while Mrs. Snyder, black clad, and with her jaw firm and hard, stared at each in turn. One by one, and sometimes two by two, they climbed out of the box and vanished through a door in the rear of the square courtroom on the third floor of the Long Island City courthouse, where Gray and his mistress are called to answer to the charge of murder, after an illicit love affair which terminated in a drunken party and the slaying of Snyder by beating him with picture wire.

Be free of "YELLOW MASK!"

YOU never can have beautiful, pearly teeth until you free the glistening enamel of that glassy yellow mask that envelopes it.

Know how that seemingly unshakable yellowish tinge originates. In your saliva is a "liquid cement" known as Calculus. It glues to the enamel and hardens into a glassy mask. And yet it is absorbent—drinks in food orbent-drinks in food, coffee and tobacco stains like a blotter takes up ink. These discolor it.

Foremost dentists use a peculiar substance known as 'Tri-Calcium Phosphate" to erase this mask of Calculus. your teeth look after your dentist has cleaned them. Now dental science has gone one step farther-it has embodied this marvelous substance in a pleasant, tasty tooth paste. It is known as ORPHOS Tooth Paste. Of course, it can't scratch or mar the softest enamel-or dentists wouldn't use it.

Scientific Research Reveals Futility of Pyorrhea Panic and Self-Medication for Any Kind of Tooth Troubles, Real or Imaginary. Just Keep Teeth Clean - Clean Teeth Don't Decay, Authorities Agree.

19 in 20 Mouths Are Safe!

BADING DENTAL AUTHORITIES justify neither pyorrhea panie nor ex-travagant claims regarding the ause, relief or prevention of tooth decay.

Only 1 in 20 Had Pyorrhea. That's what the Life Extension Institute found after examining nearly 17,000 policy holders of the Metropolitan Life Insurance Company.

Not a Constant Dread. Dr. John O. McCall of New York University Dental College recently alleged that pyorrhea need not be the fear and horror it has become.

Unfilled Fissures the Real Menace-

The greatest progress that is being made in dentistry today is on the side of prevention—be sure teeth are cleanable, then keep them clean.

The Massachusetts Department of Public Health, for example, has been distributing a circular among school children and their parents, which locally applies the vital, nation-wide dental prevention movement sponsored by Dr. Thaddeus P. Hyatt, Dental Director of the Metropolitan Life Insurance Company, and other authorities. "Prevent tooth decay-fill those fissures," is their significant message.

"Take the child to the dentist when a new tooth appears." If a fissure is found, let the dentist "smooth it out or fill it."

"85% of All Molars Have Fissures." "A fissure is no larger than one bristle of a toothbrush," says the Massachusetts Department of Public Health. "Brushing cannot keep it clean. Food

entirely new kind of linoleum floor. The base is Armstrong's Jaspé or Armstrong's Plain Linoleum in pleasing tones of gray, tan, blue, green. The decorations are cleverly applied with heavy oil colors so that the background peeps through as a regular part of the pattern.

Here is a new surface effect—an effect of actual low relief. A surface that sparkles with bright color, cheerful color: an easy-to-keep-clean surface-for dust and dirt rest lightly on it-ready to be whisked away un-

der your dust mop. Different in idea. Different in beauty. Different in its low price. Make it a point to see Armstrong's Arabesq and other new Armstrong patterns when

> Inset Jaspe-Marble tiles. Also NEW notes

If you like Armstrong's Jaspé Linoleum with its twotoned ripple effect, you will like Armstrong's Inset Jaspé

Neat figures have been inserted at regular intervals in the open field, giving an appearance hitherto obtained only by a painstaking hand operation. The result is a floor that gives character to the largest of rooms without being at all obtrusive. Also ask to see Armstrong's Marbleized Tiles-a new graining effect in genuine inlaid linoleum.

Laid without bother for a lifetime of wear

Floors of Armstrong's Inlaid Linoleum require only proper laying to be cemented, not tacked an occasional waxing, to make them good for a score of years. All inlaid patterns are doublepressed to insure a smooth surface, tiles neatly lined up, the whole floor waxed to a velvety finish-ready to be put down in your home.

Why Street Car **Riding Grows**

DID you ever stop to consider the significance of the steady increase in street car riding in Chicago?

Do you know why, in spite of the growing number of automobiles, there were 221,000,000 more rides on the Surface Lines last year than in 1922 and 57,000,000 more than in 1925?

The reason becomes apparent upon a moment's consideration.

It is because street car service meets the needs of the people of Chicago better than that of any other transportation agency.

Surface Lines tracks reach all parts of the city. Every business section and every residential community is easily accessible by one or more of the many Surface Lines routes.

And Chicago citizens have learned that they save time and effort by using street cars in going to work or shopping during the day or to the theater in the evening.

There is no substitute for street car service.

Q. How does the car owner benefit by the United States Rubber Company's operation of its own Cotton Mills?

A. Cotton Cord is the backbone of every tire. So no tire can be better than the cord used in it-and the quality of United States Tires benefits greatly by these cord mills.

They were established ten years ago solely for the purpose of producing an adequate supply of uniformly high grade tire cord, made strictly according to the specifications laid down for United States Tires.

The establishment and operation of these mills, like every other United States Rubber Company development, leads directly to longer tire life and greater value for the car owner's dollar.

Consider Your Own Peace of Mind

"TOTHING can bring you peace but yourself," so Emerson, the famous essayist, has truly written.

To you today has come an opportunity to secure great peace of mind by performing a family duty superbly well. This gift, one many kings have vainly desired, is offered through the New Addition of Rosehill Mausoleum. Here you may secure for the name and memory of your loved ones the honor of never-ending protectionbronze, marble and granite-guarded by two mighty trust funds and a perpetual state charter.

Here have been thoughtfully provided varied arrangements that meet the needs of all, and are within reach of even most moderate incomes. Among them you will find one planned just to suit you. Any steps of inquiry you take, no matter how extensive, will put you under no obligation whatsoever. May we arrange your trip to the Mausoleum soon?

Nobody wants a one-bathroom home!

America's progress is reflected in no better way than in our improvement in living conditions. What satisfied yesterday seems inadequate today. The one-bathroom home is a noteworthy example. Once a luxury it is now considered out-of-date. Additional bathrooms increase living comfort and health and add far more than their cost to property values.

See these model bathrooms

The need for more bathrooms in the home is becoming universally recognized. As proof, note the large numher of new homes and apartments in your neighborhood which are being equipped with two, three and more bathrooms each. See, too, how old homes and epertments are being modernized by having extra bathrooms installed. These builders and owners know that an extra bathroom

FEDERAL TRADE **BOARD TEST CASE** MEETS SETBACK

[Chiese Tribuse Press Service.]

Washington, D. C., April 18.—[Special.]—Authority of the Federal Trade commission to obtain cost of production reports from leading industries remains in dispute under a decision handed down today by the Supreme Court of the United States.

The famous Claire Furnace company case, which has been in the courts for seven years and twice argued before the Supreme court, was remanded to the District of Columbia Supreme court, with directions to dismiss the bill of injunction filed by twenty-two steel companies against the federal body.

steel companies against the federal body.

The Supreme court while reversing the lower courts, did not pass upon the constitutional merits in question, but remanded the case upon a point

of procedure.

The Supreme court declared the companies' bill of injunction should have been dismissed for want of equity—that when the orders of the commission were challenged the attorney general should have been requested to mandamus the companies to supply the necessary facts or to enforce the incurred forfeitures under the law.

Total Bonds Outstanding \$2,749,000
Principal and semi-annual interest, February 1 and August 1, payable at the First National Bank in New York City

Since the area served is strictly residential in character, these bonds are not to be confused with the usual type of district obligations. The territory to be improved by storm sewers lies immediately adjucent to and adjoint the City of Tampa, but it not within the corporate limits of the City. It was therefore expedient to issue these bonds under the authority of the General Drainage Law of Florida.

The district occupies almost the entire area of the Interbay Peninsula, and is located immediately adjacent to, and adjoins, the city limits of Tampa, which is the second largest city in Florida, and the most important port and commercial center in the State.

The district, which is approximately 7½ miles long and 2½ miles wide, represents the finest residential suburban section tributary to Tampa. It is well improved with pawed streets and residences, and is in no sense agricultural. The present population of the district is 23,450.

The Gandy Bridge, completed in 1924 at a cost of more than \$2,000,000, has its eastern approach at the approximate center of the western boundary of the district. All traffic over the bridge

Announcing:

The Investment Company of America

AUTHORIZED CAPITALIZATION Preferred Shares (\$100 par) \$5,000,000 Common Shares (no par value) 200,000 Shares

The Investment Company of America has been formed as a Business Trust, administered by Trustees who are incorporated as a Trustee Corporation under Michigan law, to conduct the business of an Investment Trust. Its purpose is to obtain for the investor a higher return on capital employed than is ordinarily available with safety to him as an individual. It is engaged solely in the business of investing and reinvesting its resources in seasoned, market able securities and affords its shareholders safety of principal through careful examination, broad diversification and constant supervision. The organization consists of four main divisions of function: A Board of Trustees, a Research Department, an Economic Council and an Advisory Board, These units work in close co-operation toward the conservative and effective investment of the Trust fund.

THE ADVISORT BOARD is vested with the final power of veto or approval of securities recommended by the Trustees for investment of the Trust fund. Its membership includes men who have achieved success in many fields and are the heads of industrial and financial institutions of wide scope and contacts:

THE ECONOMIC COUNCIL advises the Trustees as to the formation of the investment policy and in the selection of types of securities and lines of industry favored by economic trends. It is composed of a group of distinguished economists, including:

CHARLES S. MOTT, Plint,

E. A. PIERCE, New York City, E. A. Pierce & Company, Members of the New York Stock Base

THE TRUSTRES are charged with the responsibility of investing the Trust fund subject to terms of the Trust Independent and approval of the Advisory Board. Their recommendations to the Advisory Board are based upon the studies of the Research Department and advice of the Economic Council, supplemented by field investigations. The Trustees are Edward E. MacCrone, Charles J. Collinsand Jonathan B. Lovelace of E. E. MacCrone & Company, Raymond K. Dyless of Dylessa; Jones and Wheat, and Albert J. Hettinger, Jr., President of the Investment Research Corporation.

The investing public will be enabled to participate in the benefits of the Trust through the purchase of preferror and common shares, of which it is expected a public offering will be made in the near future.

FINANCING FOREIGN TRADE at the Nation's Second Port

At New Orleans merchandise of the world changes hands. American manufacturers draw upon Central and South America for raw material. Brazil sends us coffee, rubber and maliogany. Cuba augments our sugar supply. Tea, silk, hemp, jute, metals and chemicals come from the Far East. Hides, tallow, skins and hardwood

First Mortgage 51/2% Serial Gold Bonds

Dated March 1, 1927. Principal and semi-annual interest, March 1 and September 1, payable at the office of the First Trust and Savings Bank, Chicago, Trustee. Redeemable at 105 and interest on or before March 1, 1937 and at 100 and interest thereafter. Total issue authorized and outstanding \$2,100,000. FIRST TRUST AND SAVINGS BANK, CHICAGO, ILLINOIS, TRUSTEE

Further information is given in a letter from Mr. C. J. Eldredge, President of the Chicago Butter & Egg Building Corporation, from which we summarize as follows:

SECURITY: These bonds will be the direct obligation of the Chicago Butter & Egg Building Corporation and will be secured by a closed first mortgage to the First Trust and Savings Bank, Chicago, Trustee, on the land owned in fee located at the northwest corner of Washington and Chicago, Trustee, on the land owned in fee located at the northwest corner of Washington and Franklin Streets, Chicago, and the building to be erected thereon, to be known as the Chicago Mercantile Exchange. The land has a frontage of 180 feet on Franklin Street and 101 feet on Washington Street. The building to be constructed will be a seventeen story steel reinforced concrete fireproof building. The entire secon and mezzanine portion of the third floor are designed to meet the requirements of the Chicago Mercantile Exchange. The Exchange trading floor, 74 feet by 123 feet, is to have a 28 foot ceiling, without a single pillar, while the upper floors will be so arranged that they can be divided into economical office units throughout. The property securing these bonds has been independently appraised at \$3,698,240. This loan, therefore, represents 56.8% of the value of the property mortgaged. Appraisal of the land has been made by Winston and Company, Chicago, and the building, when completed, and in accordance with the final plans and specifications, by Holabird & Roche, Architects, Chicago, as follows:

Land \$ 950,000 Building \$2,748,240

OWNERSHIP: Entire capital stock of the Chicago Butter & Egg Building Corporation is held in trust by the Board of Directors of the Chicago Mercantile Exchange, for the benefit held in trust by the Board of Directors of the Chicago Mercantile Exchange, for the benefit of its members. The Chicago Mercantile Exchange is the most important factor in the United States in the marketing of butter and eggs, and at present has 500 members. Chicago, being the principal distributing point for these commodities, the marketing facilities offered by the Exchange are comparable to the functions of the Chicago Board of Trade in its field. The volume of spot and future delivery business transacted through the Exchange in 1926 was 174,979 cars of butter and eggs, representing a market value of \$896,196,835.

EARNINGS: Net annual earnings based upon a conservative renting schedule, after operating expenses and taxes, are estimated at \$327,577, or more than 2.8 times the maximum annual interest charges of \$115,500 of this issue. The Chicago Mercantile Exchange has contracted to lease the second and third floors for a period of at least twenty years at a rental of \$66,500

Thousands are following this planon their present living budget

Men with and without families—women in business-thousands in every walk of life are winning financial independence through the simple plan given in this book.

The plan works just as surely whether you are now earning \$1,000 or \$100,000 a year.

The way is certain—each step plainly indicated and absolutely safe—independent of luck, business genius or speculation. Every fact has been harvested out of 46 years'

experience of Cochran & McCluer in the first mortgage investment banking business. The plan is so simple, anyone can understand

it-so definite, anyone can follow it-and so certain, no one can fail. In addition to the Financial Independence Plan and the unique budget schedule, the book gives

sound, clear answers to many important questions on money and investment matters. Phone, call or send coupon for your free copy. We employ no salesmen—therefore none will

Alan took her hands and found them trembling in spite of the frozen calm of her face.

"Cristina, my dear, the beautiful signora knows you are my wife. I told her. And I don't care what anybody else—I mean, I don't care what anybody hinks. Haven't you known me long enough to realize that?"

For a moment it looked as though Cristina wavered a little, but the reserved expression remained and very gently she drew away her hands.

"Why did you tall the English signora we are married?" she asked.

"Because she is a very old friend."

"It you said you couldn't see her."

"I didn't know her as Mrs. Tancred."

"She wasn't married when you knew her?"

"She wasn't married when you knew her?"

"She was a little girl when I first knew her," Alan replied.

"You were lovers, perhaps?" Cristina asked.

Alan laughed harshly. "Perhaps," he conceded. Quickly and with decision he changed the subject, but already too much had been said which made it phin enough that a great deal more remained unspoken.

Cristina became peculiarly stubborn. She would not permit him to come with her. If he insisted she, herself, would not so, and she wished to go. There were her parents and her brothers and sisters as well as little Giovanni, it under the black shadow of the plague.

"Fromise me," Alan pleaded when he found she was not to be moved, 'that you'll bring the boy back here at once. His place is with us, as I've always contended. We needn't stay in Bordighera—I was thinking of making a move, anyway—but we can discuss that when you come home again."

It was probably Cristina's fault that Alan took a slightly impersonal view their marriage. Sometimes he found it difficult to realize that she was his the and not merely his servant, and there was no particular reason why she said ever have become his wife. He had married her after a severe bout illness through which she had nursed him with the peculiar devotion of trace during such times of trial. Very likely she had saved his life, but she had not expected him to marry her because of that. For Alan Brooke it made more convenient to do so. He didn't want his conscience to bother in, and he had been moved to make love to her by loueliness and sheer mare for affection. A woman of his own race and class would have made many demands upon him, whereas Cristina left him free to live as he many demands upon him, whereas Cristina left him free to live as he many demands upon him, whereas the felt there was something wrong about he had been heart of hearts she felt there was something wrong about he had been possible trouble looming ahead. Sophy had not escaped Cristina notice.

He was not sorry to have her out of the way for a few days, and very far a sorry, indeed, that she had been so firm about not allowing him to apany her. It would give him time in which to do some independent hing. Perhaps he would decide to close up the Case Poverina and go over

much.

Inged his clothes and went to the station to see Cristina off by the train in which there were no first class carriages, and it seemed is for the wife of Alan Brooke to squeeze herself in with rough ut for Cristina it was all right. She didn't feel in the least out of her only mortification lay in Alan Brooke's being there to see I strain in which there were no first class carriages, and it seemed should be.

And little John—poor Glovannii Alan smiled wryly thought of his child as he had last seen the little fellow, fearfully arrayed a bonset garlanded with plaid ribbons.

The the train moved out, Alan went along to the rocky Cap Ampeglio a swim with the sea to himself except for a school of porpoises rolling. She has her face lifted, and it is soften and to consider the walked back along the railway line to the town, bought and quite serious enough to have half a newspaper column devoted land quite serious enough to have half a newspaper column devoted and quite serious enough to have half a newspaper column devoted were than a dozen deaths were reported, and the infection was spreading districts. Sometimes it was quite as well. I find myself hoping that he was acting on purpose when he effectually concealed the fact that the text makes "purpose" rhyme with "usurpers."

Wherefore the performance became a bit of a test of enunciation. The ones who came through with greatest success were Arthur Kraft, who was just about perfect, and, in an uncommonly rapid fire passage, Watt Webber. The others, Rollin Pease, who was substituting on short notice for Theodore Harrison, who is ill; Clayton Quast, Leols Turner, Margery Maxwell, and Barre Hill, did as much in the projection of the English language as a thick orchestration would allow them.

Girl Who Has "Bigs Brother" Complex Apt to Miss Altar

BY DORIS BLAKE. A young woman, 24, has been in the business world six years, during which time she has made many friends friends she hopes to keep forever.
Among them are a number of men, some rich, some poor, some in medium circumstances. But the young woman nfides she has always felt toward

them as she would toward big brothers. Some men, she has discovered, do not like a girl to feel that way about them. soon as they started talking about marriage, she let them know just how she felt. Some went away and never came back. Some are now among her dearest friends and treat her in a sisany more—just big brothers.

But, alas, the big brother safety plans of girls sometimes gang awry. One comes who refuses to be catalogued as akin to a blood tie. And the girl finds herself in love with him. But he is jealous. He wants her to give up this brotherhood gang of hers and devote her time to him alone. After treating her the way he did, the girl thinks it too much to be asked of

thinks it too much to be asked of her, all of a heap. Even though she and the "jealous one" are engaged, she remembers there's many a slip twixt the cup and the lip, and if she gives up her friends she might some day be left out in the cold.

That's foresight on her part, but 't's not quite in the lover's code. For the platitude about slips twixt the cup and the lip we'd suggest substituting the one about a bird in the hand being worth two in the bush. Or the even threadbare one about not being able to have your cake and eat it, too. to have your cake and eat it, too.

A girl simply cannot have her man and a half dozen others thrown in. It's nice to be popular and all that, estly in love with you than to have ten or twenty men playing the half-hearted big brother rôle. I never apuld see much in that big brother stuff, the street the other morning crying bitterly, I stopped him, saying, What is the trouble, sonny?" and "What is the trouble, sonny?" and he replied, "I lost my dog."

Just then I spied a daschund a short distance away, se I said, "O, look, is that your dog?"

The little fellow, looking at him

Women's Old-Time Hygiene

Disappearing New way discards like tissue

By BLLEN J. BUCKLAND Registered Name

THE worries and fear of the uncertain hygienic ways of yesterday are rapidly passing. 8 in 10
better class women employ a new
way called Kotex.

Kotex discards like tissue. No
laundry, no disposal bother.

Being 5 times as absorbent as or-dinary cotton "pads," it permits lightest gowns and frocks without danger. Dance, motor, go about for hours without a moment's doubt. Deodorizes, too, thus ending all fear of offense. Doctors urge this way. Many stores have Kotex already wrapped on counters, ready for you to pick up without even asking for it. Try today and you'll never again-risk uncertain old ways. Box of 12 costs only a few cents. Be sure you get the genmine. Only Kotex itself is "like" Kotex.

BY JANE EDDINGTON. Basting Meats.

We might make the following preaching instance of how flavor can be cooked into or cooked out of meat.

a lot of harmless shooting, harmless if you will wipe off your oven as soon as the meat is out, as you can with a long handled awab on with paper at the end of your own long arm. But the oven need not be so mussed up if you learn how to graduate your heats.

be cooked into or cooked out of meat.
"You takes your choice." Because basting may be dangerous and hot business, some people would rather cook their meats in water or steam, which dissolve the binding elements and leave them with a mass of what is more or less evidently strings.

The fat on a piece of ment—do not let the butcher trim it off—in a way, bastes the meat all the time it is cooking, which is why some people place a roasting turkey or chicken place a roasting turkey or chicken the fine cook lards his meat—to keep in the juices rather than to let them evaporate and leave his meat dry.

In starting to roast a piece of meat, it is well to measure out the salt you intend to use and put it in sight. Finally mix it with a little of the fat, and add it to all just before the last basting. The getting meat, saited in the right way is a nice piece of work.

While meat is roasting you will hear the very ever attempt a roast?

Naturally the blouse does not escape this paramount influence. When it completes the sports costume it de-lights to drape across the neck a printed handkerchief of silk tied in a arge bow on one shoulder or knotted with long ends. When it is of tailored style it is apt to finish a turn-down ollar with a bow tie.

Often a bow offers a severely cut louse its only decorative note. Such is the case in the attractive model we are showing above. Developed in peach colored satin, this blouse spon-sors a side closing with gold buttons at the bottom and a self material bow at the top. From both points ray out groups of fine pin tucks. Of course, if you are perverse enough to wish to escape from this

particular device, you'll not find it hard to do so. Waistcoat blouses with tucked vestees fastened at the bottom four buttons are exceedingly good. Those of sweater type may be perfectly plain. For in a season like this, when the suit is of such para-mount importance, designers have given us every type of blouse con-

Trying to Reduce?

A few effective suggestions for taking off pounds without being deaf to the stomach's demands

EVERY woman wants to be slender these days. But getting that way is another matter. Some urge starving. Others urge tremendous amounts of exercise. Both are hard and unnessary.

amounts of exercise. Both are hard and unnecessary.

The two important things are modification of diet (not starvation) and proper elimination through the bowels, kidneys and liver of fat-inviting waste matter. Do these two, and you'll be slender without much trouble; with no annoyance.

The best eliminator for this purpose, according to many authorities, is nothing more mysterious than old-time Beecham's Pills.

Take them regularly at night. Then a glass of water before breakfast.

Thousands of women now are taking these particular pills because, unlike most laxatives, they work on the bowels, and also tend to promote liver and kidney function. Most eliminators aim at only one or two. Complete elimination is necessary in weight reduction.

As to diet. Use whole wheat and bran breads instead of white. Have a dessert with only one meal a day—

"From the very first day I began using the pure, snowy Black and White Peroxide (Vanishing) Cream," says distinctively beautiful Miss Helen Courtney, 4404 Fourth Ave., New York City, "I could see it was delightfully different from any vanishing cream I'd ever used. It's simply wonderful the way it protects my skin from the weather, and holds my face powder on smoothly for hours! But I was surprised and delighted after a short time to notice a decided whitening of my complexion and a refining of its texture, until now it is softer, fairer and more delicately fine than ever before."

This dainty cream is a mild bleach and astringent which gradually whitens the skin, closes the pores and improves the texture. These qualities, combined with its power of protection and flattery as a powder base, make Black and White Peroxide (Vanishing) Cream the marvely of discriminating women everywhere, who appreciate the supreme quality and excellence of the Black and White Beauty Creations at the popular 50c and 25c prices.
